February 5, 2019 Clinical Documentation – Jose Pestana, MD

Objectives: Explain the importance of accurate documentation for quality and reimbursement purposes. Identify documentation needs for common diagnoses. Describe how complete and accurate documentation assists with compliance and determining the medical necessity of admissions. Define common diagnostic terms needed for accurate coding. Describe the basics of coding, hospital reimbursement, and audit and regulatory initiatives

February 12, 2019 Acid Reflux Disease – Theodore Small, MD

Objectives: Review diagnostic workup of patients with acid reflux disease or GERD. Summarize management of reflux in terms of diet, lifestyle, and medications. Discuss new surgery options using LINX.

February 19, 2019 Alzheimer's Disease – Diana Pollock, MD & Celisa Bonner, LCSW

Objectives: Recognize the importance of Alzheimer's disease early diagnosis and identify challenges in differentiating Alzheimer's disease versus other causes of cognitive impairment.

Describe treatment approaches and investigational therapies for the early stages of Alzheimer's disease. Develop resources for patients and their families related to the disease process.

February 26, 2019 Malabsorption Syndrome – Satinderpal Sondhi, MD

Objectives: Identify epidemiology and pathophysiology of malabsorption syndrome. Describe appropriate management of patients with malabsorption syndrome including short gut syndrome.

Paul Lewis, MD., Director of Continuing Medical Education CME Office Telephone 467-2517 FAX 467-2459.
