June 4, 2019 Drivable Cognitive Assessment – Brian Gillooly, P.T., M.Ed.

Objectives: Identify appropriate patients in need of testing. Demonstrate competency with data points in testing results and incorporate those into an overall treatment plan. Demonstrate competency with key language associated with testing data for outcome interpretation with patients and families.

June 11, 2019 Update on Lung Cancer Diagnosis & Treatment – Philip C. Ovardia, MD

Objectives: Discuss current recommendations regarding lung cancer screening. Review current/updated lung cancer staging. Discuss surgical and non-surgical treatment options for lung cancer.

June 18, 2019 Demolishing the Demand for Human Trafficking – Laurie Wisotsky, PA-C, MHS

Objectives: Define human trafficking and recognize how victims may come into contact with healthcare. Learn to identify potential human trafficking victims in a clinical setting. Identify promising practices for assisting a patient who may be a potential trafficking victim.

June 25, 2019 Medical Marijuana – Keith Waldrep, MD

Objectives: Summarize the evidential basis, potential clinical indications, and limitations of medical marijuana. Give examples of the risks and side effects associated with cannabis use.

September 10, 2019 Next Conference

Paul Lewis, MD., Director of Continuing Medical Education CME Office Telephone 467-2517 FAX 467-2459.
