September 3, 2019 No Conference

September 10, 2019 Pathway Driven Quality Medicine – Heather Germann, MD & Paul Lewis, MD

Objectives: Explain the initiatives Baycare Health System has undertaken to provide the highest quality cost effective health care. Recognize the importance of minimizing clinical variation in patient care and how patient care pathways play a role in doing such. Describe the way evidence based clinical pathways are designed and implemented at Baycare. Review one of the current clinical pathways.

September 17, 2019 Back Pain: A Peak Behind the Curtain – Andrew Moulton, MD

Objectives: Describe common sources of back pain. Review non-operative treatment options for back pain. Discuss surgical options for back pain.

September 24, 2019 Update on Minimally Invasive techniques in Interventional Oncology – David Epstein, MD

Objectives: Review the current technology of IR procedures in oncologic disease, most specifically regarding image-guided thermal ablative techniques, yttrium-90 radio embolization and chemoembolization. Discuss current data supporting the application of image-guided thermal ablative techniques in solid organ tumor treatment. Discuss the current data supporting the application of yttrium-90 radio embolization and chemoembolization for liver cancers.

Describe the expanding role of IR in the care of the oncologic patient.

Paul Lewis, MD., Director of Continuing Medical Education CME Office Telephone 467-2517 FAX 467-2459.
